62nd ICoMST

International Congress of
Meat Science and Technology

August 14 - 19, 2016
Bangkok, THAILAND

swissôtel LE CONCORDE
BANGKOK

www.icomst2016.org

Sawasdee ka

From the 14th to the 19th of August 2016, the 62nd ICoMST will be held in Bangkok, Thailand. This is the first time that Thailand is the host country for the ICoMST. On behalf of the organizing committee, it gives me great pleasure and honor to invite meat scientists, technologists and people from industries from around the world, to Thailand - The Land of Smiles. ICoMST is the leading global platform to share knowledge and technological advancements, host scientific discussions and provide opportunities to set up networks in meat science and technology.

The theme of the conference, Meat for Global Sustainability, reflects the future role of meat production, which needs to give more consideration to competitiveness, as well as green, inclusive and sustainable growth.

The scientific programs will include invited keynote speakers, who are experts in their fields, as well as oral and poster presentations. Technical tours of production systems and industries, scenic tours, and social meetings, will be arranged, not only for delegates but also for the people accompanying them.

I'm looking forward to seeing and welcoming you all in Bangkok in 2016.

Organization Groups

Bangkok is the nation's capital since 1782, is both a gateway and a principal destination for most travellers to Thailand. The city has many historic buildings, great sightseeing and lots of accommodation. The Marble Temple is one sightseeing destination located in the capital.

Bangkok is an encapsulation of Thailand's quintessential blend of old and new. You'll marvel at the past and delight in the amazing present.

Thai Cuisine, delicious with poignant tastes, is a true gastronomic art.

Thai Fruit, some are seasonal but there is always wide choice available.
